Would You Like to Increase Your Credibility and Results?

Consulting Resource Group brings out the excellence within each of us! What is your credibility built upon?

How can you use that information to dramatically strengthen your powerful connections with people and organizations?

More important, CRG provides you with the tools to train your clientele. Using these tools with your clients creates stronger relationships and a better understanding of client behaviors. This understanding creates trust.

The professional quality of the tools generates credibility! And it is an additional revenue stream.

What are the Benefits of Showing Up?

• Discover the secret to resolving power struggles that will KEEP YOUR JOB and/or YOUR CLIENTS!

• “Style-shift” to create trust with employees, clients, family, and friends.

• Uncover the secret tools to the Power of Persuasion.

• Learn to quickly deploy CRG tools in your business or organization for breakthrough results.

• Learn how associates have earned an EXTRA $20,000 PER YEAR WITH CRG!

And they have fun doing it!

Remember the man who bought the shaver company because he liked the product so much? Well, I liked the way CRG transforms people’s lives so much that I bought CRG.

For over 10 years, I mentored under the founder of the company. Then, when the time came, he transferred the torch to me, to carry on with CRG’s great service to people. CRG was founded 26 years ago. Over 1 million users in over 20 countries have personally experienced the unique and powerful impact of CRG assessments and resources.

Like you, I was a professional using CRG materials. I was personally involved with the transformation of the lives of thousands of people using CRG’s learning systems. The experience was very emotionally rewarding!

The financial rewards confirmed my business decision. Many companies like yours use CRG’s resources to create extra streams of income. Earn commissions on the learning systems or get referral fees from other companies. Either way, the numbers make CRG a good business partner.

The power of the Licensed Associate all begins with TRAIN-THE-TRAINER.

If you want to find yourself, start your journey at CRG and use the PSI because it will give you the road map for the rest of your journey.

With Over 100 Resources, We Have the Right Tool for Your Situation!
Here are CRG’s current top-six assessments.

1. **Personal Style Indicator (PSI)**
   Most people don’t think about how they tend to respond to people and tasks. The PSI will clarify your behaviors and those of your clients in a way that can be clearly communicated to others, while providing focus for areas of potential growth.

2. **Values Preference Indicator (VPI)**
   Do you know what is most important to you and your team? That knowledge makes tough everyday decisions easier, especially when interpersonal relationships, family, and work are involved.

3. **Entrepreneurial Style and Success Indicator (ESSI)**
   Think like an entrepreneur. Set yourself up for success, whether you work on your own or with a team. Be part of the 15% of small-business startups that succeed!

4. **Learning Style Indicator (LSI)**
   Learning is now a lifelong enterprise. Graduation Day is the beginning, not the end. More now than ever individuals and professionals need to understand their preferred learning style to accelerate and improve their learning experience and results.

5. **Stress Indicator and Health Planner (SIHP)**
   As baby boomers age and our young people become more health-conscious, it is critical to know and understand our overall stress and wellness levels. It is even more important to have a road map to improve our health. The SIHP will point you and your clients in the right direction.

6. **Leadership Skills Inventory–Self (LSI–S)**
   Today’s tough organizational challenges require transformational leaders who can adapt to rapidly changing social and technical environments. The LSI–S is a chance to better understand and develop your clients’ transformational leadership skills.

Until we attended your workshop, I was not aware of the significant advantages that the CRG tools had over other assessments. Without question, every HR or Training Professional needs to attend your workshop to truly understand the powerful design and impact that your tools have—there is no replacement for being there.

CRG Resources are for Professionals who Work with People!

CRG brings out excellence in you and your clients.
It doesn't matter if you are a business owner, a sales professional, a senior executive of a Fortune 500 company, or a student at the local high school. CRG tools and resources contribute to your success by providing you with a road map for the future.

At a recent HR conference, I asked the audience these questions.
• What would it mean if your employees, clients, and colleagues loved what they do?
• What would happen to productivity and sales if everyone in your organization lived a balanced, healthy lifestyle, presented themselves with confidence, and had their values honored at home and at work?

Several research projects have proven over and over that happy, on purpose staff and team members are far more productive, healthy, and fulfilled than unhappy individuals.
